2023- Miles Perry, CommunicateHealth, Inc., Research Mentor

## **RESEARCH AND OTHER EXTERNAL SUPPORT**

### **Current Grant Support**

8/2023 – 12/2027 Health Resources and Services Administration (HRSA) Advanced Nursing Education Workforce to Promote Health Equity for All.  
Rhoads, S. (PI), Bellflower, B. (Co-I), Reed, L. (Co-I), Sharp, J. (Co-I), Fouquier, K. (Co-I), Clark, R. (Co-I), **Anderson, J.N. (Co-I)** & Beasley (Co-I) \$650,000/year  
The Advanced Nursing Education Workforce to Promote Health Equity for All provides stipends and support for 19 DNP students per year (14 NMW, 2 PMHNP, 2 FNP, 1 Dual FNP/PHMNP). The project also develops a Health Equity Training and Toolkit for DNP students, recruits diverse students for the stipends, and further develops academic-practice partnerships in rural and urban underserved areas.

1/2023 – 12/2023 Washing DC Center for AIDS Research  
Dangerfield II, D.T. (PI), **Anderson, J.N. (Co-I)** (\$41,273)  
*Designing a shared decision-making tool to improve pre-exposure prophylaxis (PrEP) initiation among Black sexual minority men*  
This study will design a shared decision-making tool to increase PrEP initiation among Black sexual minority men that leverages patterns in effective communication with a peer change agent.

1/2023 – 12/2025 Tennessee Department of Health  
Walker, C. (PI), Armstrong, D. (Co-I), Summers, N. (Co-I), Cernasev, A. (Co-I), **Anderson, J.N. (Content Expert)** (\$129,800)  
*Interdisciplinary PrEP Bootcamp for Healthcare Professional Learners*  
This study conducted a PrEP bootcamp/training for healthcare professional students located at the University of Tennessee Health Science Center in Memphis, TN that included patient-clinician communication, epistemic injustice, and social determinants of health. The bootcamp included traditional didactic lectures, small group discussions, and simulation with standardized patients.

### **Pending Grant Support**

National Institute of Mental Health  
Dangerfield, II, D.T. (MPI), **Anderson, J.N. (MPI)**, Walker, C. (Co-I), Hickson, D. (Co-I), Bluthenthal, R. (Co-I) & Kaplan, C. (Consultant) (Subaward budget: \$1,037,627, Effort: 30%)  
*Identifying multilevel facilitators of care outcomes among positive deviants to design an intervention for black sexual minority men living with HIV*  
Black sexual minority men living with HIV (BSMM LWH) experience multiple socioecological barriers that prevent treatment adherence and viral suppression. This study will identify how “positive deviants who are virally suppressed BSMM LWH in Shelby County, TN and Prince George’s County, MD circumvent well-established multilevel barriers (e.g., racism and intersectional stigma) to design an intervention to improve HIV care outcomes.

National Center for Advancing Translational Sciences, National Institute of Health  
TN-Clinical and Translational Science Institute; 7-year project period; notification in 2024.  
Johnson (MPI) & Martin (MPI) [Many Co-Investigators and Module Leaders]  
**Anderson, J.N. (Co-I)**, Community and Stakeholder Engagement Research Module.  
Module Aim: Develop and strengthen the TN-CTSI efforts to engage the full spectrum of community stakeholders and partners in bi-directional collaboration to advance clinical and translational science endeavors to improve human health.

### **Past Grant Support**

9/2107 – 8/2022 National Cancer Institute R01CA218155  
Graetz, I. (PI), Krukowski, R.A. (Co-I), **Anderson, J.N. (Co-I)**, Mehmet, K. (Co-I), Waters, T. (Co-I), Vidal, G.A. (Co-I), & Schwartzberg, L.S. (Co-I) (\$2,02,260)  
*Communication App to Manage Symptoms and Improve Adjuvant Endocrine Therapy Adherence*  
This study tested the use of a web-enabled app that is integrated directly with patients’ electronic health records, with and without tailored feedback. The app-based intervention was designed to improve patient-provider communication outside of clinic visits, resulting in improved symptom management and adjuvant

endocrine therapy adherence among diverse patients with hormone receptor-positive breast cancer. We evaluated the impact of the intervention on a comprehensive set of outcomes, including measures of long-term adherence, quality of life, and costs.

3/1/2018 – 8/31/2019 National Cancer Institute 3R01CA218155-01S1

Research Supplement to Promote Diversity in Health-Related Research

Graetz, I. (PI), **Anderson, J.N. (Project Director)**, Martin, M. (Co-I), Eggly, S. (Co-I) & Schwartzberg, L.S. (Co-I) (\$166,087)

*Effect of patient-provider sexual communication on adjuvant endocrine therapy (AET) adherence, sexual dysfunction management, and sexual quality of life among Black women with breast cancer*

This qualitative study explored the impact of patient-clinician communication about sexual health on AET adherence, symptom management, and sexual quality of life among a diverse group of Black women with hormone receptor-positive breast cancer living in the U.S. Mid-South region.

9/1/2018 – 8/31/2020 National Cancer Institute 5R01CA218155-02

Administrative Supplement for Research on Sexual and Gender Minority (SGM) Populations

Graetz, I. (PI), **Anderson, J.N. (Project Director)**, & Graff, J.C. (Co-I) (\$99,998)

*Communication and adjuvant endocrine therapy adherence among lesbian, bisexual, and queer (LBQ) women with breast cancer*

This study used qualitative (e.g., in-depth interviews and a focus group) and quantitative evidence (self-report measures) to understand the unique patient-provider communication and AET treatment adherence challenges that LBQ women with breast cancer face during the course of their treatments.
