

UTHSC - General Surgery Clinical Rotation G&O

Sponsoring Institution: Regional One Health (ROH)

Site: ROH

Rotations: Vascular Surgery

PGY 3

Rotation Objectives

By the end of the Vascular Surgery rotation at ROH, PGY 3 residents are expected to achieve the following objectives based on the six general competencies. The resident should exhibit an increasing level of responsibility and independency as he or she progresses throughout the year. Since competencies learned or mastered in the previous years of residency are competencies required for a successful surgeon, the Fourth-year resident will demonstrate achieved objectives in previous years with expanded knowledge, more efficiency in performance of procedures, and additional knowledge in pathophysiology encompassing more complex disorders.
